FACTSHEET FIVE

Being a collection of notes on current publications and what-not from Mike Gunderloy, now at 273 Huntington Avenue, Hyde Park, MA 02136; pjo ~~XXX~~ (617)-361-1455. This is a Pretzel Press publication, and is mostl available through Additorial whim; you may keep getting it whether you indicate interest or not but I would appreciate feedback. I intend this zine to cross-pollinate the interests of some of its readers; what it will actually ~~xxxxxx~~ do remains to be seen. Begun 4 May 1982.

****

First person to identify the source of the title will win something. I have no idea what and do not guarantee it will be worthwhile or fun.

****

MASTER MONOGRAPH is a publication of the Ancient & Mystical Order of the Cabal of Kallisti, 1210 Brady Street #1, Davenport, Iowa, 52803. This zine is of interest mainly to Discordians and FBI agents; the latter are cordially invited to convert to the former. There are contributions from a number of fine, confused writers, one of whom may even be some version of your humble scribe. Publication schedule somewhat irregular, but a dollar will get you something sooner or later. If you have any hankering to slip away from consensus reality, I recommend you try at least one issue for size.

****

If you feel any psychic link with a large, dark-haired woman in an upstairs study in the frozen North, Andrea Chalfin-Antonoff is most likely who you have in mind. Tune in every Sunday night at 10 PM Eastern Time and see what you receive in this continuing ESP experiment. Send results or inquiries to Andrea at 60 Park Street, Burlington, VT 05401.

****

Cienfuegos Distribution, 3512 12th Ave. South, Minneapolis, MN 55407 has a catalogue of anarchist publications available for the asking. If you're interested in the subject, they put out works covering the anarchist spectrum from intellectual discussion to blowing up bridges.

****

The Last International, 55 Sutter Street, #487, San Francisco, CA 94104 is some sort of psychotic joke perpetuated by a madman with access to a Xerox machine. For some of the more amusing revolutionary broadsides in existence, send him/it/them a buck and see what you get in return.

****

The Curch of the SubGenius, Box 140306, Dallas, Texas, 75214 will reveal your true nature, and that of the world about you, for another of your hard-earned dollars. Anyone who gives serious thought to the questions of religion will either be offended or amused by this cheesy fly-by-night scam, but at least they are a scam of good quality. Exercmeditation, Jehovah-1, SLACK!, they've got it all, and most of it is for sale.

Original in MSC Exhibit Box

The Church of the Anarchist Avatar, Box 18841, Tampa, FL 33679 (except from June through September, when the address is: Box 99530, San Francisco, CA 94109) has THE GOSPEL ACCORDING TO FRED THE PUBLICIAN available for (guess what?) a dollar. Other goodies may come with it according to the whim of someone....

****

INSIDE JOKE is available from Elayne Wechsler, 418 East Third Avenue, Roselle, NJ 07203. It's a monthly, more or less, and availble for a dollar OR 40 cents in stamps. Prose, poetry, reviews, madness, punk rock, Bob & Doug MacKenzie, Firesign Theatre, drugs, Discordia, New York Subway Jokes...whatever, it's in here somewhere. A good buy, get it while it's still underpriced.

****

ASSASSINS FROM TOMORROW, by Peter Heath (Lancer/Magnum/Prestige Books, 1967 pb) has the least plausible Kennedy assassination theory I've x ever run across as the mainspring of its plot. Considering what they say about John Dillinger, that's quite an accomplishment. If you like schlock and inadvertently funny writing (and who doesn't) keep an eye out for this wherever you buy used books. You'll probably never find a copy, but you can read mine the next time you come to visit.

****

415-821-1714, 415-928-0641, 314-227-4312 were running some ah, interesting computer bulletin boards the last time I checked. Not for the easily offended.

****

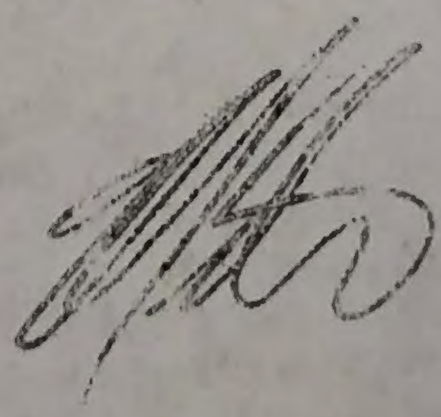
Anarchists should, broadly speaking, be in favor of high technology, especially such things as personal computers, computer networking by phone, and universally available video-teaching devices, because the only way to free ourselves from the governments of the world is to become imposible to control. True or False?

****

Anarchists should, broadly speaking, be opposed to high technology, especially such things as personal computers, computer networking by phone, and universally available video-teaching devices, because such things will make it ever easier for the governments of the world to monitor and direct our thoughts. False or true?

****

That's all for now. Press run: 50 copies. If you want any publicity in the next issue (if there is one) let me know.



TRANSCRIBED.
